

## WHY HEATSHIELD?

### EASIER, FASTER, & MORE PROFITABLE

A typical HeatShield job can easily be completed in a half day, saving on costly labor. Chimney flues repaired with HeatShield are more efficient and more structurally sound.

### ANOTHER TOOL IN YOUR TOOLBOX

HeatShield repairs are suitable for repairing gaps and cracks in many clay tile lined flues. A great tool to add to your arsenal of services, adding to your current revenue stream.

### A SAFER ALTERNATIVE

Breaking out flue tiles is dangerous and labor intensive. HeatShield is a non-destructive repair method that doesn't require breaking out & removing flue tiles.

### GROW YOUR BUSINESS

Factory trained HeatShield dealers can attend our HeatShield Summits. Many consider this to be the industry's premier business building event.

# HeatShield

*An easier, faster, more profitable solution to chimney repair.*

## Take Your Business to the Next Level

HeatShield is a repair system that restores damaged chimney flue tiles to their original integrity. It offers chimney professionals a versatile alternative to stainless steel relining and other repair methods.

Add HeatShield to your business to accelerate your sales and profits and get access to the latest innovative products in the chimney industry.

Proudly made in the USA by an employee owned company
